

## REGISTER FOR NEW APPRENTICE TERM

The sixth term of training classes for war production workers will begin on May 14, 1945. These classes will be held at the Hampton Hi gh School on Monday and Wednesday nights from 7 until 9: 30 p.m. and will run for a period of five weeks, closing on June 13, 1945. It should be kept in mind thiat the school year will close with the completion of this term. Therefore this is the last opportunity that apprentices and other interested employees will have in this school year to acquire additional related study ):redits.

The tentative 1 ist of courses offered for the sixth term include: Blueprint Reading, Shop Mathematics, Algebra, Geometry, Trigonometry, Logarithms and Slide Rule, Analytical Geometry, Physics Mechanical Drawing, Mechanics and Strength of Materials, Machine Shop Theory, Sheetmetal Layout, Metallurgy, Use of Handbooks, Simple Aeronautics and Advanced Aeronautics.

In addition to the classes listed above, others may be offered, providing a sufficient number of employees indicate a desire for such courses. While the courses are intended primarily for apprentices, any employee of the Laboratory who would like to take advantage of such training should contact Frank Penland or Iris Worley, Apprentice Training Office, telephone 2256; on or before May 10, 1945.

## NOTICE!

Official play in the Men's Softball League will begin Monday. The Flight Blues will tee off against $8^{\prime} H S T$ at the Hampton \$1 field; Flight Whites will face Loads on NACA 11 ; and it will be East Shops vs Stability on NACA \$2. Game time is 6 p.m. at Hampton and 5:30 at the Field. The new NACA diamonds are located adjacent to the Impact Basin in the West Area.

## ALLOTMENTS FOR WAR LOAN STILL LAGGING

During the month of April laboratory personnel increased their bond allotments and cash sales $\$ 34,014.65$, which amount is to be applied to the Laboratory's quota in the Seventh War Loan Drive which will soon be opened officially. This amount breaks down as follows: Increases and new allotments - \$3,939.65; Temporary allotments - $\$ 16,087.50$; Cash sales, $\ddagger 13,987.50$.

Drive Chairman Starr Truscott said he was pleased to note an increase of more than six thousand dollars over last week's total but added that allotments are still far below what was anticipated. "If more employees do not arrange for payroll deductions," Truscott stated, "I am afraid that almost $50 \%$ of the Laboratory's quota of over $\$ 100,000$ will have to be made up by cash sales. Once again, I urge everyone who can possibly do so to increase his or her payroll allotment as this is the easiest way to raise the money without undue hardship on anyone."

## FREE CHEST X-RAYS FOR ALL EMPLOYEES

Every conscientious person is interested in eradicating one of America's major killers - tuberculosis. Surveys have shown that half a million persons in this country are affected to a greater or lesser degree, many of them being completely unaware of their condition. This dread disease can only be eliminated by discovery and early treatment and the isolation of persons who spread it, and for this purpose the Elizabeth City County Tuberculosis Association is sponsoring free chest X-Rays for all adult residents of the county. The X-Ray takes only a moment and it provides positive proof of the existence or non-existence of tuberculosis of the lungs. The X-Rays will be taken on the following schedule and employees are urged to see that the members of their families, as well as

## ALL-STARS TACKLE 19-FOOT SUNDAY

Softball's opening gun will be fired at the Darling Stadium Sunday at 1:30 p.m. when the 1944 All Stars play host to the 1944 champs from the 19 .Foot Pressure Tunnel.

The champs will go to bat with practically the same team that won the league pennant last year. The only changes in the 1 ineup are the moving of Bill Conner from right field to third base and the addition of Charlie Bennet and Fred Burnside to the outfield. Pitcher Al Martina is the mainstay of the team, and was voted the top hurler in the league last year by an overwhelming margin. The leading hitters are Captain Pat Cancro, shortstop, Owen Deters, catcher, and Stan Spooner, first baseman, whose mighty home run won the final playoff game last year.

The Stars will take the field behind the pitching of either Si Diskin or Dale Burrows. Among the leading batsmen are John Neff, catcher, Walter Woods, second base, ard Ray Comenzo, shortstop, all of whom had a better than. 400 average 1 ast year.

Sid Batterson will be the chief umpire.

The probable starting 1 ineups will be:

| 19-Foot | Pos. | All Stars |
| :--- | :---: | :--- |
| Deters | c | Neff |
| Spooner | 1b | Sweberg |
| Teplitz | 2b | Woods |
| Cancro | ss | Comenzo |
| Conner | 3b | Schumacher |
| Koven | sf | Neihouse |
| Burnside | 1f | Reeder |
| Neely | cf | Hagginbothom |
| Bennett | rf | Link |
| Martina | p | Diskin or |
|  |  | Burrows |

themselves, take advantage of this of fer:
HAMPTON HIGH SCHOOL - Victoria Ave.

| May 10 | 10.12 | $1-4$ | $6-9$ |
| May 11 | $10-12$ | $1-4$ | $6-9$ |
| May 14 |  | $1-4$ | $6-9$ |
| MAY 15 | $10-12$ | $1-4$ | $6-9$ |

## EDITORIAL

## PLAYING PERCENTAGE

The March report on the purchase of War Bonds by the three NACA Laboratories and the Washington Office has just $t^{-}$ come in, and it shows this laboratory leading by a substantial margin in both the actual amount subscribed and in the percentage of the monthly payroll set aside for this purpose. So far so good!

However, this report also shows that LMAL ranks a poor thi rd in the percentage of employees participating. Only $\mathbf{9 1 . 6 2 \%}$ of the people working here allot a portion of their earnings to the purchase of bonds as compared to Cleveland's excellent rate of $97.06 \%$ and Washington's $92.11 \%$. This means that everyone here is not doing his or her part - that almost nine out of every hundred of our employees are leaving the purchase of bonds up to "the other fellow."

There is no better time than now for this non-subscribing group to arrange for a bond allotment. The gigantic Seventh War Loan drive will soon.open officially and employees may request an advance deduction which will be counted toward the Laboratory's quota.

Let's put the Seventh War Loan over the top! Arrange for your payroll allotment today!

## Premature Pop-offs

Tucked away in the Bible is the grim prediction that there will always be rumors of wars. Far be it from us to improve on the Good Book, but it might well have added that there will also always be rumors of peace - as the news of past week clearly indicates. Hardly a day goes by that some radio commentator doesn't pop up with the prediction of a German capitulation within the hour., Usual ly he is immediately followed by anotner commentator who glumly observes that surrender will not come for months. You pays your money and you takes your choice.

Maybe V-E day will have come by the time you receive this paper. We hope so. But if it hasn't, let's not get all hepped up over the idea until our own President or General Eisenhower makes the formal announcement.

Now we wouldn't be exactly human if we didn't give a little whoop of joy when the great day comes. After all, it means that our loved ones who have fought such a good fight will be safe and that justice will once more prevail over armed night. But let's save our real bangup celebration until the Nazis back-stabbing little pals in the Pacific are in the same unhappy position as their German masters. Let's stick to our jobs to keep America supreme in the skies, so when the final day of victory comes we can rejoice in the fact that we also did our part.

The time men spend in trying to impress others they could spend in doing thing.s by which others would be impressed. --Frank Romer.

You will probably get a larger position than you expect when you begin to do larger things than your firm expects you to do.

> --George C. Hobbs.

The lives many people live may be likened to the passengers on the rear $p l a t$ form of an observation car. They can' $t$ look ahead, don't know what they are running into; they only notice things as they are passing or after they have passed.
.-Wm. J. H. Boetck er.

## CAPTAINS PICK LeAGUE WINNERS

With softball ready to take uver next week, the captains of 18 of the 20 teams entered in the league this season were asked to predict the league winners. Based on a 4, 3, 2, 1 point system for first, second, third, and fourth place selection, 19-Foot looks like a repeater in first place. Structures amassed 46 points to run second, and Full-Scale and Low Turbulence came in third and fourth with 23 and 14 points respectively. Following is a brief sketch of each team.

19' Pressure Tunne1 - Never classed as a hard hitting team, last year's champs are chiefly dependent on the arm of Al Martina, according to the captains. Rated by many as the "only" pitcher in the league last year, Al was by far the most effective. Coupled with the smart fieldgeneralship of Pat Cancro, it's a good combination.

Structures - There is probably more good talent on this ball club than any other in the league, plus the best fighting spirit on the field. Four of the men, Diskin, Neff, Woods, and Rossman, were chosen for the All Stars last year. The infield is particularly good and the outfield aoticeably weak. Diskin is rated as one of the smartest captains in the league and if he can carry the team around some blatant displays of that well known Structures temperament, they might upset the favorite.

Full-Scale Tunnel - The outlook for the season shows no impending marriages or expected offspring that would affect the team. Captain Bill Hagginbothom says that this is most heartening after last year's bumper crop. Roy Lange will take the mound again with practically the same club behind him. Conspicuous by his absence will be third baseman Claude

## DERENG, D.M.S., IS UNIQUE HOBBYIST

Durwoud Dereng, night supervisor in the Dynamic Model Shop, has let his model building and his love of nusic and the violin come together to form the basic for a most unique and enjoyable hobby. He now makes violins.

A year or so ago he was thinking about buying a new violin, and wanting to know more about the history of the different models, borrowed a book from a fellow employee, Bob Kamm, which told himplenty. It even had

> Hart, but Jerry Brewer looks like a better than average replacement.

Low Turbulence - Here is the dark horse of the seasonk the East Area Shops of last year. The club fields and hits above average, and has two good pitchers in Dale Burrows and Carl Cecil. Muchedepends on Bur rows' control. If he can get his fast ball across the plate thereare few batters in the league who can lay a stick on it. If he can't, your guess is as good as anybody's.

| Pos. | Team | Captain | First | Second | Third | Fourth |

[^0]
plans for making the Stradivarius model.

Durwood ordered supplies from al dealer and started in. For about six months, he averaged five hours a day at his work. This of course was in addition to woodwork here at the model shop. For these five hours he sat atop a stool, working on a tiny table sandwiched between the refrigerator and drainboard in his kitchen. Then he finished. He personally made everything except the bridge, pins and strings, and after all, there is a limit to everything.

Having nothing better to with the violin he had just made, he whipped out a bow and played a little tune. He still does that rather frequently, and to the extent that Tom Hulcher, long an admi rer, swears that he plays Intermezzo better than Leslie Howard did in the movie of the same name.

Young Dereng takes his hobby most seriously, and he realized that it would take quite a few years for the fiddle to age, and mellow the tone. Since he has nothing better to do while he is waiting, he has started to work on ano ther.
TENNIS TOURNAMENT SCHEDULED FOR SUNDAY, MAY 13
With their fingers crossed, and keeping a sharp eye on the weather, the officers of the Tennis Club have announced that the recently postponed tournament has been re-scheduled for Sunday, May 13. Persons wishing to enter the meet should contact Tommy Toll, the club's president, at Stability Tunne1, 4431.

Unless there is another downour by this weekend, two of the Club's courts should be in playable condition for anyone wishing to practice. They are located just off the traffic circle on Langley Field Road.

John Darmish writes that he has been wounded in action in Germany and at the present he is in a hospital in England and expects to be there for quite sometime. He would welcome letters from any of his former Laboratory friends. His address is: Pvt. J. M. Darmish, 33860457 , 4148 USA Hospital Plant, APO 63, c/o Postmaster, N. Y., N. Y.

Willie Craig, fomerly of Personnel, sends his regards all the way from Oahu Island. He writes, mil still am not doing a damn thing but sunning myself on palm fringed beaches one day and spending the next three miserably crouched in a rain soaked tent. . . I'm eating like a king, the food being of A- 1 quality and also well prepared. . . Honolulu and Waikiki are greatly overrated but nice anyway." Bill "s new address is: Pvt. W. E. Craig, 33855436, 145th AACS Squadron, AFO 953, c/o Postmaster, San Francisco, Calif.
"I am still 'interned' at Keesler Field in the heart of the muddy Mississippi swamps. It has been my fate to be assigned to airplane and engine mechanics school here but $I$ have hopes of getting out of here about the latter part of July," writes Pvt. O. W. Culpepper, Sqdn. M, Box 242, 3704 th A.A.F.B.U., Keesler Field, Miss.

Af\%er receiving his Christmas issue of Air Scoop which reached him by way of Camp Peary, New York, Florida, Norfolk, and California, Harleth Wiley finally decided to break down and send us his new address which is: Ensign Harleth Wiley, USS Biscayne, AGC 18, Fleet Post Office, San Francisco.

Walter Kabana sent the above picture of the first LMAL group to don G. I. duds at Keesler Field. They are (from left to right.) Bob Cart, Hershey Goldenberg, Nick Kopsifitis, a new buddy. Walter Kabana, John Gradle, and Charles Rogers (kneeling).

## X-RAY
