

## LANGLEY MEMORIAL AERONAUTICAL LABORATORY

## STRUCTURES, ALL-STARS TO PLAY APRIL 23 <br> Plans have been completed for the pre-season softball at traction which will bring together Structures Research, 1943 champions, and the Bulletin All-Stars. The game will be played on Sunday, April 23 , at 2 p.m. at Dariing Memorial Park. <br> In event of inelement weather, the contest will be postponed until April 27. <br> Meanwhile, plans are goling forward for the operation of the LMAL Softball League this season. There are 14 teams entered, including the Englneering Section, Bat Busters, Full Scale Tunnel, 8-foot High Speed Tunnel, Tank, AWT, Low Turbulence Tunnel, Structures, Instrument Research, RRT, Aircraft Loads, East Area Shop, Flight Research, and 19-foot Tunnel.

## NAME SOUTHERMERS <br> The Green Cow executive

 committee members were evidently so overjoyed at completing arrangements for the next dance so far in advance, that thej forgat which band they lifred. The stor in last week's Bulletin stated that Red Overton would furnish the music when it should have read that Blair Blanton and the Snutherners would occupy the bandstand.Bill Craig, chairman of the committee, announced that the booking of the southerners was in keening with the new idea $n f$ nresenting a variety of dance music to the prom trotters. Bob Savage and Red Overton have been presented aty the nreceding dances of the

FOR APRIL 21 DANCE year.

The Southerners are regarded as one of the "tops" of local bands. They have a style that encompasses both sweet and hot. Among the featured attractions are the stars of the WGH radio show, "Songs by Shirley and Blair", which is heard over the local airways each Thursaay at $7: 45$ p.m. Blair Blanton is the piano playing leader and Shirley Linkus the petite vocalist. Also featured with the band is the hot trumpet of Bert "beat to the socks" Milier, of the West Sheetmetal Shop.

The dance w111 be held at the Hampton Armory on Friday, Aprid 21 , from 9 untilumdnight.

## 

This might sound like 'monkey business', but it's really a true story about Pfc. Elmer W. Greene, Jr., brother of Shirley Greene of the Laboratory's stenographic section.

Private Greene saw plenty of action on the Kwajalein and Eniwetok atolls. 'I heard the bullets whistle over my head more than once.... and was knocked down by concussion once, he wrote.

But despite the bullets and mortar fire of the Japs, the 'crowning', blow for Greene came when hes was knocked unconscious by falling coconut.

## ELEVEN RETURN TO LAB IN ACER

Eleven Laboratory drafteligible men who have come under the Army-Navy NACA Personnel Plan have been inducted and ordered to LMAL in the Air Corps Enlisted Reserve, according to a report made by officials here.

First to return was Charlie E. Rogers, who came back on March 20. W11 L1amA. Earecks on, Jr., and Charles B. Edwards, Jr., returned on March 22. Eight came back on March 27, including Alvin W. Brittingham, William C. Burtner, Francis R. Dreisbach, Theodore H. Elder, Hugh C. Hallidaょ, Louis M, Nucci, Harry C. Shoaf, and Andrew Veryzer.

Two other men, John T. Law and David E. Hicks, who had received their preinduction physical exams before the Arm Navy NACA Personnel Plan's list of essential employees was officially approved, did not elect to come under the plan when they feported for induction on

Law and Hieks had been assigned to the Navy at the time they passed their preinduction physicals. Both were on the essential list and at the time they reported for induction they carried certificates requesting their return to LMAL by way of the ACER. However, since the plan is entirely voluntary with the individual, they were not returned as a result of their own choice.

The LMAL Bulletin is prepared and published at the Langley Memorial Aeronautical Laboratory of the National Advisory Committee for Aeronautics, Langley Field, Virginia, in the interest of LMAL employees. Contributions of news and art should be sent to the Editor, in the Administration Building. Telephone: 376 . Fditor . . . . . . . . . H. Lee Dickinson Managing Editor . . . E. McKinley Hutton Associate Editor. . . . Ruth Angel

## Conservation Needed

A report from the Stock Section indicates that there is a erítical shortage of paper towels. "It is almost impossible to Lo obtain them at the present.time", we are told.

Employees are urged to practice conservation in the use of paper towels. It has been suggested that one way to do this is lo let as much water as possible drip off the hands before trying them with a towel. When this is done only one towel is "sually needed.

## FIGURES SHOW WORK GROWTH

From Aviation News
The increased operations and importance of the work being done by the National Advisory Committee for Aernnautics is reflected in the 1945 fiscal year estimated appropriation listed at $\$ 23,454$, 500 as compared with the \$15,672,000 for the 1944 fiscal year.

There is pending, in the deficiency appropriation bill, an 1 tem of $\$ 2,398,415$ for NACA general operating expenses and in addition there are three supplemental estimates for constructions: $\$ 8,804,200$ for Langley Field; $\$ 2,249,100$ for Moffett Field and $\$ 3,936,000$ for the Cleveland laboratories.

Dr. Jerome C. Hunsaker, chaitman, told a house appropriations subcommittee that in spite of wishful thinking and hoping, we have to prepare for a long war.

He declared: "we must go on the idea that it is a war with increasing pressure for full supremacy in the air. That is the critical thing in the war and we can take no chances on losing that air supremacy".

If a man empties his purse into his head, no man can take it away from him. And investment in knowledge pays the best interest.
-B. Frankiln
No man ever worked his passage anywheres in a dead calm-kites rise against, not with the wind.
-John Neal

PHOTOGRAPHIC PROCESS BOOK MAY BE PURCHASED AT $\$ 4.50$

Dave Ullman, ICL, phone 328 , reports that he can arrange to supply at reduced rate the book, "The Photographic Process", bj J. E. Mack and M. J. Martin, to any emplojee interested.

I'he cost under the reduced rate is $\$ 4.50$, Mr. Ullman said, adding that this price was obtained because of the large number which are being nordered at one time. Any one interested should notify Ullman immediatel $\boldsymbol{s}^{z}$.
WHAT NEXT? "Factory Managemont" masazine reports that one use suggested for the helicopter is to carry sirders and beams to high buildings or bridges and hold them in place while they are be ing fastened. Th is would make derricks, ele vitors, and cranes unnecessary for this purposer

USO NEWSOPERATIC SOCIETY TO GIVE KALMAN'S 'COUNTESS MARITZA'

The Newport News Operatic

This week's program at the Hampton Industrial USO begins on April 2 with open house and a meeting of the Brain Busters. On April 4 at 8 p.m. the bridge club will meet. The American Legion will have a meeting on Tuesday, Ap ${ }^{\text {al }}$ 4. A movie He's My Guy", starring Dick Foran and Irene Harvey will be shown at 8:30 p.m. on April 6. The April 7 calendar will feature an "eatin" meetin" "at 5:30 p.m. On Saturday night, April 8, beginning at $8: 30$, there will be a dance.

LOST: A book "Phjsical and Dynamical Meteorology" by David Brunt. If found please call Bob Souterat Aircraft Loads.
NEW NUMBER: Stability Tunnel Head, 325.

Society is presenting "Countess Maritzan, by Emmerick Kalman, in the Newport News High School Auditorium on Monday, Tues day, and Wednesday nights, April 17, 18, and 19. Admission will be $\$ 1.20$ and tickets may be obtained from Lucette Biver, Cost office. BOOKS ON 'COMPLEX VARIABLE' AVAILABLE FROM MR. GARRICK
I. E. Garrick, Physical Research, phone 332, has available at $\$ 1.60$ each, eight copies of the book, "Functions of a Complex Variable With Applications", by E. G. Phillips.

These books were ordered last fall for a Universita of Virginia extension course and arrived from the publisher four months late. Any one interested in obtaining one maj comminicate with Mr. Garrick.

BASKETBALL CHAMPIONS: In a highly successful LMAL Hank Fedziuk, James Delaney, Capt. Arvo Luoma, Ralph basketball season, championship honors went to the 8- Bielat, and G. E. Niles. Back row-C. A. Clarke, manafoot High Speed Turinel team. Approximately 100 staff members participated in the abbreviated seas on's play. ger; A. T. Mattson, Fellix M. Beiduk, W. S. Aiken, Donald Baals, and Cletus J. Vincke. Team members not in the picture were Bob Forrester and Bob Pendley.
showing a keen spirit of competition and good sports-
manship. The champs include (from left): Front row--

## (2) Norraroor

A new name was added to our mailing list last week--that of Staff Sergt. Philip Fruchtman, who formerly worked in the Laboratory's West Sheetmetal Shop. He is a radio operator and gunner on a B-24. "Pinky", as he is known to many of his friends here, thad completed six missions over Germany at the time of his last letter early this year.

We also received more letters last week from fellows on the mailing list:

One was from Private Viggo $G$. Dereng, who is attending Bombsight and Automatic Flight Control Maintenance School at Lowry Field in Denver, Colo. He sendsa 'hello and best of luck' to all his old friends and says he would welcome any news from the 'gang'.

Howard 'Benny' Miller writes to say that he has been transferred from Freeman Field in Seymour, Ind., to Western Kentucky State Teachers, College in Bowling Green, Ky., where he is an aviation student. 'The longer I'm away from NACA, the more I realize the importance of the work....I'm looking forward to the time when I can again return to NACA and take up where I left off.'

Bobby "Shorty" Harrison, who is undergoing basic training at Aberdeen, Md., in a letter to Melvin N. Gough, head of the Flight Research Division, tells something of his experiences while learning to fire the Army's 30-caliber rifle.
"...To show you how scared $I$ was, when I fired by second shot, I had tears rolling down my face. I oue rcame my fright and on my second fire $I$ made a score of 162 (sharpshooter)..." He said he got a big kick out of firing it after "I got used to it and I couldn't understand why I was scared of it..."
"Shorty" says he is preparing for a week in the woods in pup tents and has discovered at least one advantage in being small. "My feet will not stick out the end of my tent at night. Then too, I won't have to dig as big a fox hcle as the larger fellows..." CONDOLENCES to Dr. Calvin v . Warfield, ALD, on the death of his father Friday night, March 24, in Baltimore.

## LIBRARY NEWS

The following new books are available at the Library in the Administration Building:
629.134 Markley, James M. Textbook edition. Fundamentals for the A ircraft Mechanic.

She: "My Dad takes things apart to see why they don't go."

He: "That's interesting, but so what?"

She: "You'd better go."
-Broadcaster

BRAIN BUSTERS DISCUSS RULES

The rules discussion conducted by the Brain Busters on March 26 at the Hampton Industrial USO was attended by nine members who aired their views in regard to the 1944 rules as presented by the Academy of Model Aeronautics. All present were agreed that the Academy rules "are too stringent and unfair" and should be disregarded by the Brain Busters.

Among suggestions for rules to be used in Hampton were:

1. That AMA 1943 rules should be followed, with a shorter motor run as used locally in 1943.
2. A minimum wing area of 1500 square inches per cubic inch piston displacement, with no regard to wing or power loading; no cross-section.
3. Increase wing loading to $12-15$ oz. per square foot and increase the motor run.
4. Lim1t planes only to class according to AMA rules for $A, B$ and $C$ engines. No wing loading, power loading, cross-section, or wing area rulings.

The next meeting will be held Sunday, April 9, at the Industrial USO. Paul Marchal, Jr., acting secretary, announced that the club wishes to formulate rules in the best interests of the mafority of members and urges a full attendance at the session.

## BUY MORE WAR BONDS

## PLAN 'SUNRISE' SERVICE

 AT MRS. DARLING'S HOME The young people of Hamp ton are sponsoring on Easter Sunrise Service to be held on Sunday, April 9, on the lawn of Mrs. Frank W. Darling's home in Hampton. This will be the second annual Sunrise Service.The program will start at 6:30 a.m., with Dr. William A. Aery leading the meditation. Elizabeth Chapman, violinist, will furnish the music.

## Life At The Laboratory

here and there: Helen Walker, Stucks, is visitine a friend at Fort Bragg, N. C....Oleta Church and Marge Bulluck, AWT, "spent the week-end at Oleta's home in North Wilkesburo, N.C... Marjaret Farmer, AWT, is spending a few dajs at her home in Wilson, N. C....ShirleJ Huxter, l6-Font Tunnel, has returned after a visit to her home in Richmond.... Fat Chiarito, Structures, has zone to his home in New York to visit his brother who will soon ǧo overseas....John Duburg, . Structures, is back atter a visit to New York....Louise Faul, AWT, visited her family in Washiniton, N. C., last week....Joe Kotanchik, Structures, is back after a visit to Fhiladelphia.

VACATION RHAPSODY: Ruth Smith, Construction, and her husband, whohas just received his second lieutenant's commission, have returned after spendinu twelve days in Detroit.....Billy Warren, ANT, is spending a few dajs at her home in Sumter, S.C...Herman Ankenbruck, Free Flisht Tunnel, has returned from Baltimore where he visited his brother, who is stationed there with the U. S. Armu....F. K. Deck, Dynamic Tunnel Operations Shop, has lef't the Lab to help his father on his farm.

MISCELLANY: Ruth Barnhart, Spin Tunnel, has returned from a visit to her home in Alouquerque, N. M. She brought a bottle of Albuquerque dirt to Tom Snyder so he would know just what the place looks like....Dot Estes, 19' Fressure Tunnel, has returned atter a visit tu her home in Greensboro, N. C... Hazel Fhil Jaw, 19' Fressure Tunnel, took a train to Washington last week-end and "flu". back. She was out of work for three dajs. Bob Graham, 19' Fressure Tunnel, and his wite, Nell of L Furchase, are back from a visit to Raleigh.
visitor: Lieut. Carl J. Wenzinger, former head of 19 ' Fressure Tunnel Section, visited the Lab last Tuesdaj, March 21.

ILL WINDS: Buck Barber, Construction Furchase, who has been ill for the past tew weeks, is recuperating at his home in Hilton. . . Marie Bird Allen, Head of 16: Tunnel Computing Section, is back at work after recuperating from measles... Dorothy Bria, AWT, is at her home in Hampton after undergoing treatment at the Base Hospital.

PARTYING: The boys of Club 55 had a party last Friday night, March 24, honorine Bob Weinberger, who celebrated his birthday. Bob was a quarter of a century old....Free Flizht Tunnel had another of its well known parties Fridaj night, March 31, at the Hampton Yacht Club.

BRIDGE TOURNAMENT: The first round of the $19^{\prime}$ Fressure Tunnel's bridge tournament was so successtul that the stat't is planning to run off another round. Owen Deters and Ralph Avakian were the hiGh scorers. Jerry Teplitz and Helen Flanagan, who were slated for last place at the end of the first play off, surprised everyone $b_{j}$ ending up in second place; and to prove their ability they are entering the ALD bride tournament.

PROUD PAPA: Howard H . Morris, Assistant Chief of the Technical Service Depariment, is the proud t'ather of a son, Howard H. Morris, Jr., born Tuesda ${ }^{r}$, March 28.
outstanding: In the battle for the cellar position in the basketball tournament, played oft between Tank and 16' Tunnel. last M, nda, night, March 27, Le unard Damratowski of Tank, proved to be une of the uutstandine players for 16'. In the midst ot all the contusion, he dropped the ball in the basket to score a points for the opponents.

NEW ARRIVAL: Frederick Breisch, West Machine Shop, is the father of a new son, born March 2.3 at Dixie Hospital.

## CLEVELAND CLIPPINGS

HOMES READY: Riverside Park, a new hnusing project, is nearing completion. Some NACA emplojees have already moved in.

SMOKER: Carlton Kemper, Executive Engineer of AERL, was princinal speaker at the "smoker" for Laboratory employees held on March 23.

STUNT NITES: Stunt Nite shows were staged on three different evenings to accommodate the large number of employees who received free tickets by virtue of their purchasing $\$ 25$ bonds during the Fourth War Loan Drive.

FOSTER ILL: Hampton Foster, formerly of LMAL and now head of the Multicylinder Diesel Group at AERL, is convalescing from several weeks' illness.

SPORTS: Basketball, golfing, bowling and rifle shonting hold the AERL sports spotlight. A rifle range is being built in the basement of one of the Lab buillings.

ANY UNSAFE PRACTICES HERE?
Man removing splinter from finger with knife blade.
LOST: Arthur Kantrowitr has lost a book which is one of the Durand Series, Vol. 3. If found please contact him by calling it 48 .

## 8-FOOT TUNNEL WINS CAGE TITLE

The 8-foort Hi, Sh Speed Tunnel team nutclassed the field and ran away with the Laburatory Basketball Lea, ue championship, winding up the season with seven victories and no deteats in lwup cumpetitiun.

Trailine them in second place was the Structures Research quint, unl team tu defeat the champs, in an exhibition cuntest plased two weeks aso. Structures won six. Their only loss was to the 8-f゙outers.

The champions ended the leasue season March 26 with a 31 to 24 victory over AFR. At half'time the hish speeders were leading, 13 to 10. Their lead narrowed to $1 \geq$ to 18 at the besinning of the fourth period, but Hank Fedziuk, whu made 13 points durinc the came, paced the champs in the furth periud to widen the breach. Capt. Arvo Luoma and Cletus Vincke starred "n the defense. Irwin with teen points was hish man fur AFR.

Structures defteated IRL in another March 26 game, 29 to 1.3, with Dave Ochiltree, Len Bartone, and John Houbolt talljin $n^{\prime} 12,9$, and 4 points respectively. From the second period un, Structures maintained virtually a 10 point lead.

In a battle for the cellar position, Tank won that "honor" $b_{0}$ drupping a 31 to 18 decision to 16 -toot. It was the first. victuri tor the l6-tooters, while the hydro bojs have jest to iaste victory.

## I.MAL BLOOD DONORS

David F. Woodward. Tank No. 1, Emergency case at Dixie Hospital. John H. Wood, Spin Tunnel emergency case at Dixie Hospital.

Marvin I. Haar, Tank No. 1, to wife of LMAL employee.

Jack Posner, Tank No. 1, emerbency case at Dixie Hospital.

Durwood A. Derene, Dynamic
Model shop, emeruency case at Dixie Hospital.
